Questions and Responses
For
Solicitation GM4041

1. Can a schedule of rates be quoted for a team of personnel with different skill-sets?

UDOT is looking for one price quote per person.

2. If off-the-shelf software is part of the solution, should it be costed as part of the proposal?

No

3. Will Utah be scoring the total cost of the project in the evaluation, or just the rate?

UDOT is looking for the fully loaded hourly rate per consultant, not project cost.

4. How would a proposal that used existing software as a foundation and starting point to move the project forward, meeting Utah's exact needs, be scored?

Proposals will be scored based on the number of years, amount of personal involvement, number of similar or specific experience listed in the resume (personal profile).

5. How would a proposal to provide Phase One to Utah within significantly reduced time frame be scored within the evaluation criteria?

See answer to question 3.

6. How would a response be scored that could incorporate Phase Three functionality in Phase One?

See answer to question 3.

7. Has Utah looked toward any particular DOT's linear referencing database system implementation as an example they would like to emulate?

UDOT has implemented three different databases with location referencing to emulate.

8. How will expertise and relevant experience with data migration be scored?

Data migration was not listed either as a request or a requirement, but may receive points.

9. How will the proposal that demonstrates experience with application-specific end-user training- in addition to Oracle technology training- be scored?

Proposals will be scored based on the number of years, amount of personal involvement, number of similar or specific experience listed in the resume (personal profile).

10. How will Utah score vendors who have formal quality certification, *e.g.* ISO?

Quality certification was not listed either as a request or a requirement, but may receive points.
